Dear Students of Math 3FF3:

The university community takes the health and wellness of our members seriously and we are interested in slowing the potential for spread of COVID-19. We are committed to ensuring the successful completion of the current academic term by all of our students. While the University has taken many measures to prepare and keep our community informed as the pandemic has unfolded, the university has made a decision to suspend classes at McMaster.

McMaster in-person classes and tests for undergraduate and graduate students will end as of Friday March 13th and no in-person exams will be held at the end of this term.

The following describes what you can expect for Math 3FF3 between now and the end of the term:

Between now and April 7, you can expect the following changes with respect to course instruction for this course:

- Lecture notes will be posted online (on the course webpage) with all explanations the instructor would provide in class.
- Notes for tutorials will be posted online (on the course webpage) with all explanations the TA would provide in class.
- The last 3 remaining quizzes are cancelled. The total quiz mark will be calculated from 5 best results on the 7 quizzes held in class.
- The in-class final exam will be replaced by the take-home exam. Details are yet to come.

If you have a need for accommodations, please continue to communicate with Student Accessibility Services and keep me informed.

In the event significant changes to the COVID-19 situation, further changes may need to be made to this course. Please visit <https://covid19.mcmaster.ca/> for up-to-date university information.

Sincerely,

Dmitry Pelinovsky
Instructor, Math 3FF3

Matheus Grasselli
Chair, Department of Mathematics & Statistics
